Quick Start Guide

MagPower-P10
Power Bank

I. Product Overview

FINGERS MagPower-P10 is in your great hands!

It comes with an A-Grade battery with Li-Polymer with no compromises on the quality and efficiency.

Few things to note:

- FINGERS MagPower-P10 Power Bank comes with On-Off function.
- As soon as you connect the device to Power Bank, it starts charging the device automatically.
- Press Power button once to check the battery status.
- Few devices may not start charging function automatically, and you need to press power button.

II. Important - Warnings and Safety Instructions

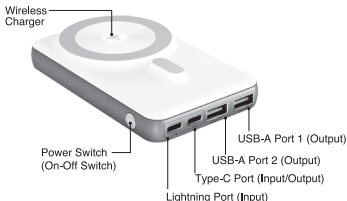

1. Make sure your FINGERS Power Bank is fully charged on its first use.
2. Do not keep cable connected to USB Port of the Power Bank, if there is no device plugged in for charging.
3. It is recommended to not keep Power Bank completely drained for long period of time as it may affect its battery life.
4. The new Power Bank can only achieve its best performance after two to three times of full charge and discharge.

5. It is recommended to extend the charging time for 1-2 hours in first three times of charging in order to maximize the performance of Polymer battery.
6. Unplug the Power Bank once it is fully charged, when unused for long periods of time or during lightning/thunderstorms.
7. Do not place the Power Banks near heat sources such as fire, radiators, stoves, light candles and other apparatus that produces heat.
8. It is recommended to not to expose the Power Bank to liquids.
9. It is recommended to use the charger to charge the Power Bank, which complies with mentioned specification details. Else, safety issues arises in case unsuitable charger is used.
10. It is recommended to refer all servicing to qualified personnel. Servicing is required when the Power Bank has been damaged in any way. Any evidence of any attempt to open and/or alter the device, including any scratch, peeling, puncturing, or removal of any of the labels, will void the Limited Warranty.

III. In the Box contents

- 1 x FINGERS MagPower-P10
- 1 x USB Type-C Charging Cable
- 1 x Brand Note
- 1 x Quick Start Guide

IV. Connections

V. Charging

a. Wired Charging

- When the device is directly connected to the port, it starts charging.
- If device is connected and is not charging, press power switch button to start charging.
- To switch off the charging, please double press the power switch button.

b. Wireless Charging

- When you put the device on Wireless Charger, it will start charging.

Note: If your device is compatible but doesn't start charging, please check your phone position on wireless charger.

VI. Battery Status Indicator

It is recommended to check battery status of the Power Bank before use.

2. Use soft, damp cloth to clean the surface.
3. Do not use any chemicals, solvents, or cleaning solutions containing alcohol, ammonia or abrasives.
4. Do not allow any liquid to enter into any of the openings.

VII. Product Specifications

Parameters	MagPower-P10
Capacity	10,000 mAh, 22.5 W
Battery	Li-Polymer
Input	1 x USB Type-C port (5V==3A, 9V==2A, 12V==1.5A, PD 18 W)
	1 x Lightning port (5V==3A, 9V==2A, 12V==1.5A, PD 18W)
Output Connectors	1 x USB Type-C port (5V==3A, 9V==2.22 A, 12V==1.67A, PD 20W)
	2 x USB-A ports (5V==4.5A, 4.5V==5A, 9V==2 A, 12V==1.5A, 22.5 W)
Battery Life Cycle	>= 300 times
Battery Charging Time	About 6~7 hours (Using 5V==2A USB Adapter)
	About 3.5 hours (Using PD-QC Charger)
Body Material	ABS
Operating Temperature	20 ~ 55°C
Dimensions	113 x 69 x 22 mm (L x W x H)
Weight	208 g
Colours	Classic White

¹Wireless Charging Support is also compatible with devices having power of 5W, 7.5W, 10W output, Max output is 15 W.

²Power Delivery is a fast charging technology, supported by certain iOS and Android devices, that delivers much higher levels of power than standard charging.

³Supports Power Delivery technology (20W Max). It can even charge Laptops using Type-C to Type-C cable. Charging time for higher voltage devices may be longer than its original charger due to max. 20W Power Output.

Safety Protection against over-current, over-voltage, short-circuit and over-heating.

9 Layers Safety Protections: • Input Side: Under-voltage | Over-voltage | Over-current | Overheat Protection

• Output Side: Under-voltage | Over-voltage | Short Circuit | Over-current

• NTC: NTC protection for temperature cut-off.
