4. The setup is done and the required cables can be connected.

V. Viewing Adjustments

To get the best viewing, we suggest facing the screen of the monitor and adjusting it to your perspective according to your personal preference. Please hold the monitor stand support during angle adjustment to avoid directly touching the display. The display angle can be adjusted within -5° to 15° range.

Note:

1. Make sure there are no objects surrounding the monitor before adjusting the monitor angle, to prevent the bump of the monitor screen with any objects during the adjustment.
2. Make sure the monitor is on a flat table and not on an unbalanced surface during the adjustment.
3. We recommend holding the base stand with one hand while gently adjusting the angle by holding the top of the monitor with another hand.

VI. Care and Maintenance

1. Unplug the monitor power plug before cleaning it.
2. Use the cleaning kit & spray the cleaning liquid on the cleaning cloth, and then gently wipe on the display surface.
3. Use a soft cloth to clean the surface.
4. Plug in the monitor power plug after the cleaning process is complete and then switch on the monitor's power.
5. Do not use any chemicals, solvents, or cleaning solutions containing alcohol, ammonia, or abrasives. Do not allow any liquid to enter any of the openings
